Why did the barber win the race? Because he took a short cut.

A diagram showing a collection of squares of various sizes connected by lines, representing a network or a complex structure. The squares are arranged in a somewhat hierarchical or branching manner, with some squares acting as central nodes connected to multiple other squares. The lines are thin and black, and the squares are white with black outlines. The entire diagram is enclosed in a rectangular frame.

⑩ 50% of 10 = _____
